PROFILE | CAREER OBJECTIVE

Passionate about tackling challenging software development tasks and continuously learning new technologies. As a recent graduate to be, I am incredibly excited to start applying theoretical knowledge in practical coding environments. and develop reliable software systems, where the technical implementation can genuinely solve meaningful problems.

WORK EXPERIENCE

Prompt Engineering, Millennium Machinery

01/2025 – 05/2025

- Analysed data
- Created python scripts
- Trained Chatbot to enhance user interaction and efficiency.
- Scheduled meetings to ensure project alignment and team coordination.

Athlone, Ireland

EDUCATION

BEng (Hons), Software Design with Artificial Intelligence for Cloud Computing,

09/2021 – 06/2026

Technological University of the Shannon

Athlone, Ireland

Expected result overall (2:1) Core Modules Year 3 (Networks) Core Modules Year 2 (Agile methodologies) Core Modules Year 1 (Web development)

SKILLS PROFILE

Programming Languages

I am compatible with different programming languages such as Python, Java, and JavaScript recently I have created some python scripts to scrape and filter data from a website.

Software Design Methodologies

I am familiar with different software design methodologies like agile approach and scrum this includes sprint planning.

Tools

I am compatible with different software tools like Visual Studio Code and PyCharm also Version Control Systems such as Git and GitHub.

INTERESTS | HOBBIES

Football

Football I have been playing football since I was in the 5th grade I took an important role as a player maker/left winger when we won the schools league in 2015.

Running

I have participated on different marathons and won some my most outstanding competition when I won first place in 3km marathon

ACHIEVEMENTS

I have been accepted for a scholarship to study abroad after my leaving cert.
